# What makes Quick-Step wood so unique?

With Quick-Step wood, you'll make your house a home with a floor that remains beautiful for years to come. Our guaranteed commitment to you ensures that your floor is easy to maintain, protected against dirt and water, and easy to install.

Experience warm, authentic wood beneath your feet without compromising on durability, waterproofness or performance.

## WOOD FOR LIFE

Thanks to our Wood for Life guarantee, your floor will stay looking beautiful. It ensures that the surface and joints are protected against dirt and spills, allowing it to easily maintain its natural look.

## WATERPROOF

Don't worry about water! Our Cala, Cascada and Amato collections have a waterproof surface and are perfectly suited to every room of your home, including the kitchen, hallway and bathroom!

## EASY INSTALLATION

Whether you do it yourself or get help from a professional, and whether your choice is floating or glued-down installation, it's as easy as 1-2-3! Our Uniclic (Multifit) system makes it easy to fully close the joints.

WHY CHOOSE QUICK-STEP WOOD FLOORING?

# Guaranteed Wood for Life

EASY TO MAINTAIN  
EXTREMELY DURABLE  
SCRATCH & STAIN RESISTANT

## WHAT DOES WOOD FOR LIFE MEAN TO YOU?

Life can be messy – from dirty shoes and muddy paws in the hallway, to red wine stains and spaghetti bolognese on the kitchen floor. Wood for Life protects your floor so that dirt, spills and dust don't get into the grain and joints.

In this way, Quick-Step wood is easy to maintain and extremely durable. Seven layers of protective lacquer ensure your floor is highly wear and tear and scratch resistant. With our Wood for Life guarantee, you can enjoy a floor that stays beautiful for years to come.

## /// QUICK-STEP<sup>®</sup> with Wood for Life

### Easy-to-clean surface

Your floor will never look dirty or dark. Thanks to a unique coating system that covers the full surface, even in the deepest surface textures. Dirt won't stick to the wood!

### Clean joints

Due to the protective coating we apply on the joints, we ensure they will stay clean. The treated joint prevents dirt and dust from penetrating in the wood and making the joints dirty and discoloured.

## Competitor wood

### Dirty surface

### Dark joints

WHY CHOOSE QUICK-STEP WOOD FLOORING?

# Beautiful, waterproof wood flooring

Our Cala, Cascada and Amato collections go even further – on top of our Wood for Life quality guarantee, they also have a waterproof surface! This means that water won't seep through the joints, so you don't have to worry about damage caused by water.

Our waterproof wood flooring can be installed in any room, including your kitchen, hallway and bathroom.

## /// QUICK-STEP®

Enjoy our new and improved click system, which makes it impossible for water to seep through the joints. On top of that, the Hydroseal water repellent coating on all four sides of the plank means that water can stay on your wood floor for up to 72 hours without causing damage.

## COMPETITOR

Without our click system, you might not get a tight fit on all sides. Water can seep through the joints, creating mould or causing damage to your subfloor.

WHY CHOOSE QUICK-STEP WOOD FLOORING?

# Easy installation

Whether you're installing your flooring yourself or you have a professional to do the job, you'll want flooring that can be laid quickly and easily. That's why Quick-Step wood has a Uniclic (Multifit) system to ensure your installation is a breeze.

Floating or glued-down installation? It's up to you. With the right underlay or glue and installation tools, your wooden floor can be installed in no time.

From installation to finishing and maintenance, we'll provide you with all the tools and products you need for your project.

# Step by step towards circularity

LIFETIME WARRANTY  
DOMESTIC USE

Being as sustainable as possible is important to us. We want to create a circular system where our floors can be recycled and re-used as raw materials at the end of their lives instead of being thrown away. How are we going to do this? We have set ourselves clear and ambitious scientific based targets for 2030, and we're always innovating in order to meet them.

Step by step, here's how we're improving the sustainability of our wood floors.

WANT TO KNOW MORE?  
SCAN THE QR CODE OR  
VISIT QUICKSTEP.COM

STEP 1

## Made from sustainably sourced wood

The core and backing of our planks are made of recovered wood or fast-growing trees which can be replaced quickly, so we don't contribute to deforestation. As for the beautiful top layer of our wooden planks, it is made from noble wood species, like oak. Because it grows slowly, it takes a long time to replace them. We source these trees from sustainably managed forests, and we harvest as few as possible. That's why we've made the top layer of our planks thinner, meaning we can preserve more of this precious natural resource.

STEP 2

## Designed to last a lifetime

Our wood floors are guaranteed for life. Because making floors that last as long as possible is the most sustainable way forward. We ensure that our floors don't have to be thrown away after a few years: waterproof, scratch and stain resistant and easy to maintain thanks to our water based lacquered finish. They'll look as good as new for years and years to come. Which is good for the planet, and good for your home, too.

STEP 3

## A new life for your wood floor

We're proud to say that we were the first company in the world to develop a ground-breaking recycling technology: we can now turn the core of our wood flooring into new materials. Our goal is to replace 25% of the virgin wood fibers for our HDF core with recycled fibres by 2030. We're also working hard to develop take-back schemes for old floor planks. A floating installation makes recycling much easier. When the time comes, you can easily remove the floor, without causing any damage or mess.

\* Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

# Let's help you decide

When selecting the wood floor that matches your style and interior, it's important to consider four things – the colour, grading, surface treatment and plank size.

## 1. Colour

Colour is central to any interior, and your floor plays a big role in that, setting the tone for your entire home. Look for the colour that best reflects your style.

### SOFT COLOURS

### NATURE COLOURS

### DARK COLOURS

## 2. Grading

Looking at the character of the flooring and the amount of knots and cracks, we divide our floors into three grading classifications: Nature, Marquant and Vibrant.

### NATURE

KNOTS & CRACKS  
● ○ ○ ○ ○

### MARQUANT

KNOTS & CRACKS  
● ● ● ○ ○

### VIBRANT

KNOTS & CRACKS  
● ● ● ● ●

## 3. Surface treatment

You'll want to enjoy your floor from the moment it's installed. That's why we pre-treat it with lacquer or oil.

### LACQUERED FINISH

### OILED FINISH

TO SEE THE FULL COLOUR OVERVIEW, LEAF THROUGH OUR COLLECTIONS FROM PAGE 24 TO 89.

## 4. Plank size

Each collection has unique dimensions. So, when selecting a floor, it's worth thinking about the size of the room you want to install it in. With different formats, from wide to narrow planks, there's something for everyone to love.

LET'S HELP YOU DECIDE

# Choose the right colour

When it comes to the colour choice in your home flooring, you'll want it to reflect your personality, whether that's trendsetter or traditionalist. Our timeless flooring can be integrated into any interior design. As colours influence your mood and well-being, it's important to feel comfortable with your choice of flooring.

TO SEE THE FULL COLOUR OVERVIEW ON ONE PAGE, GO TO PAGE 90.

SCAN THIS QR CODE TO ORDER A SAMPLE OR VISIT YOUR NEAREST QUICK-STEP SHOWROOM TO ASK FOR ONE.

NOTE: Always keep in mind that a sample gives only an indication of the appearance of the floor. Due to the natural characteristics of a wooden floor, a sample will never be able to represent all colour variations, knots, and cracks.

## SOFT COLOURS

For those who like effortless luxury in pale powder tones, our soft colour palette selects the best in colour and rich gradients, to give your home that zen feeling. A light wood grain adds soothing, harmonic tones to your home.

If you want to recreate the Minimaluxe trend, try paring back visual clutter to celebrate the things that lift you. Include tactile materials that elevate your home – bouclé, slubby linen and untreated wood.

## NATURE COLOURS

If you love being surrounded by nature's beauty, our nature colour palette will give your home a harmonious, grounding effect. Earthy tones and organic hues infuse your room with a sense of calm.

For an on-trend nod to the past, combine textured and smooth materials, sunny shades and statement pieces. Incorporating vintage and retro elements into your home interior adds a sense of nostalgia and warmth.

## DARK COLOURS

Our dark colour palette will instantly give your home a sense of sophistication and luxury. On darker surfaces all details become livelier. Deep, rich tones create a cosy, intimate ambience, perfect when you like to add depth and character to your living space.

If you're looking for an exclusive touch, try combining your dark floor with toned glass and cold metallics. Too dark for you? Add some lighter tones to balance your room to your liking or to highlight architectural details.

LET'S HELP YOU DECIDE

# Grading differences

Our flooring is made from natural oak, which gives you that authentic look you're expecting. To provide a floor which suits everyone's specific taste, we highlight those distinctive knots and cracks.

We have divided our flooring into three different grading classifications: Nature, Marquant and Vibrant. Even though each plank is unique, you'll get an idea of how your floor might look when it is installed.

CASC6029

CAL5611

CASC5111

## NATURE

Natural colour variation and small knots for a subtle look.

KNOTS & CRACKS  
● ○ ○ ○ ○

## MARQUANT

Lively colour variation with more pronounced knots for a rustic look.

KNOTS & CRACKS  
● ● ● ○ ○

## VIBRANT

Lively colour variation with big knots and cracks for a floor full of character.

KNOTS & CRACKS  
● ● ● ● ●

VISUALISE YOUR CHOICE OF FLOORING IN YOUR INTERIOR WITH OUR ROOMVIEWER.

LET'S HELP YOU DECIDE

# Surface treatment

You'll want to enjoy your floor from the moment it's installed. That's why we pre-treat it with lacquer or oil.

If you want to enjoy our Wood for Life guarantee or a waterproof wood floor, you can choose our lacquered finish as this gives the best protection against wear and tear, as well as dirt and spills.

In case you'd like to opt for a more traditional look, we also offer an oiled finish. Emphasising the authenticity of oak, you'll keep your oiled floor in top condition by applying a fresh coat every couple of years. It's important to note that oiled floors aren't waterproof and do not have the Wood for Life guarantee. Whatever the choice, your wood floor will look great.

## (DEEP) BRUSHED

Through brushing, the natural grain structure of the wooden plank is accentuated, adding depth.

## BEVEL

Bevels define each individual plank, creating the feeling of an authentic wood floor. Our collection features designs with 2 bevels on the longest sides or 4 bevels on all four sides of the plank.

## (EXTRA) MATT LACQUERED FINISH

- Seven layers of protective lacquer.
- Highly scratch and wear resistant.
- Improved protective layer that keeps the surface and the joints of your floor clean, even after years of use, thanks to Wood for Life.

## EXTRA MATT OILED FINISH

- Two layers of high-quality UV oil.
- Emphasises the authenticity of real wood.
- Can be renewed, restored and kept pristine for many years with Quick-Step cleaning and maintenance products.

All our floors are made from wood, with an oak top layer of 2.5 mm thickness.

Each pack can contain one plank which is split into two pieces. You can use these planks at the start or end of a row without the need to cut down a full plank making the installation faster and easier.

\* Tested according to ISO 4760:2022 (no leakage)

\*\* Wood naturally comes in many sizes and for this reason length can sometimes differ. We set a standard length per collection. If this length is temporarily unavailable, your retailer will offer you the alternative length instead. Depending on availability, you will receive planks measuring 1820 mm, 2200 mm or 2400 mm in length.

# CALA

Creating the idea of a sheltered bay, Cala is where elegance meets waterproofness. Elevate your space with Cala's captivating wide plank designs that merge stunning style and practical protection.

\* Wood naturally comes in many sizes and for this reason length can sometimes differ. We set a standard length of 2200 mm for Palazzo. If this length is temporarily not available, your retailer will offer you the alternative length of 1820 mm instead. The product code will then end in -1820 (2.075 m<sup>2</sup>/box), for example PAL3014S-1820.

# Accessories for your wood floor

Your dream home isn't finished when you pick your floor. Creating your perfect interior means selecting the right accessories for your chosen floor.

1

## INSTALLATION

All the tools you need for easy installation.

2

## FINISHING

From skirtings to stairs, we have everything covered to create your perfect finish.

3

## MAINTENANCE

Keep your floor looking at its best with our cleaning products and specialised oils.

ACCESSORIES FOR YOUR WOOD FLOOR

# Step 1: easy installation

Installing the right underlay has a major impact on the final quality and acoustics of your floor.

## UNDERLAYS

When you opt for a floating installation, choosing the right underlay is essential. Besides creating a level base for your new floor, it also provides excellent acoustic insulation, and the built-in vapour barrier protects your floor against rising moisture.

		 IN-ROOM NOISE REDUCTION	 NOISE REDUCTION TOWARDS ROOMS BELOW	 UNDERFLOOR HEATING AND COOLING
 <p><b>Silent Walk</b> <b>QSUDLSW7</b> Thickness: 2 mm Roll: 7 m<sup>2</sup></p> <p>The best underlay for rooms with heavy traffic, such as your living room and hallway. Offers optimal noise reduction in the room.</p>				
<p> Our Silent Walk underlay is composed of sustainable raw materials, including plant-based oils and mineral components such as chalk. We achieved a C2C Certified Material Health Certificate for this underlay, that's a globally recognized certification for products that are safe, circular and responsibly made.</p>				
 <p><b>Unisound</b> <b>QSUDLRUCO15</b> Thickness: 2 mm Roll: 15 m<sup>2</sup></p> <p>Great all-round underlay for rooms with frequent traffic, such as your living room, hallway and kitchen.</p>			Not compatible	
 <p><b>Basic Plus</b> <b>QSUDLBP15/60</b> Thickness: 2 mm Roll: 15/60 m<sup>2</sup></p> <p>All-round underlay for rooms with less traffic, such as your bedroom and home office.</p>			Not compatible	
 <p><b>Transitsound</b> <b>QSUDLTRS15</b> Thickness: 2 mm Roll: 15 m<sup>2</sup></p> <p>The ideal noise-reducing underlay for upper-floor rooms and apartments.</p>			Not compatible	
 <p><b>Thermolevel</b> <b>QSUDLTL9</b> Thickness: 5 mm Pack: 9 m<sup>2</sup></p> <p>The best choice for irregular subfloors. Provides additional insulation.</p>			Not compatible	

## GLUED-DOWN INSTALLATION

If you're going for a glued-down installation, use Quick-Step wood glue for the best result. A glued-down installation of your wood floor reduces footstep noise to a minimum, can be installed without using profiles and maximises the performance of floor heating systems.

 <p><b>Wood glue</b> <b>QSWGLUE16A</b> 16 kg</p> <p>This fast curing and ready to use wood glue is ideal for a glue-down installation of your wooden floor. Moreover, it maximises sound reduction and is resistant to humidity.</p>	
 <p><b>Wood trowel</b> <b>QSWB11</b></p> <p>This high-quality trowel provides a perfect glue distribution and is indispensable for a professional glued-down installation.</p>	
 <p><b>Adhesive tape</b> <b>NETAPE50</b> Roll: 50 m</p> <p>Attach tape to your underlay for a moisture-proof underlay installation.</p>	
 <p><b>Installation set</b> <b>QSTOOLA</b></p> <p>Set with a tapping block to easily click planks together, a cramp iron for hard-to-reach places and spacers to provide perfect expansion joints (8 to 12 mm) between walls and floor.</p>	

ACCESSORIES FOR YOUR WOOD FLOOR

# Step 2: the perfect finish

What makes our skirtings stand out is that they perfectly match the colour of your wooden floor to enhance the look of your room.

## COLOUR-MATCHED SKIRTINGS

- ✓ Perfectly matching colours: our skirtings and profiles flawlessly match the colour of every floor.
- ✓ Real veneer surface: an authentic wood experience across the entire room.
- ✓ Quick-Step warranty: skirtings and profiles come with the same warranty as your floor.

**Scotia**  
**QSWSCOT(-)**  
2400 x 17 x 17 mm

A discrete finish that matches the colour of your floor. Easy to install with One4All Glue. Also available in a white, paintable version (QSHSCOT19PAINT).

**Water resistant scotia**  
**QSWSCOT(-)JM**  
2400 x 17 x 17 mm

For our waterproof collections. Use the Foamstrip and Hydrokit for a waterproof finish. Easy to install with One4All Glue.

**Wood skirting**  
**QSWPPSKR(-)**  
2400 x 16 x 80 mm

Skirting with space to hide cables. Easy to install with One4All Glue or Track. Also available in a white, paintable version (QSWPPSKRPAINT).

**Water resistant wood skirting**  
**QSWPPSKR(-)JM**  
2400 x 16 x 80 mm

For our waterproof collections. Use the Foamstrip and Hydrokit for a waterproof finish. Easy to install with One4All Glue or a Track to hide cables.

## INSTALLATION TOOLS FOR SKIRTINGS

**One4All Glue**  
**QSGLE290**  
290 ml

Multi-purpose glue that ensures adhesion to all materials and substrates. Average usage: 1 tube for 15 m of skirtings.

**Track**  
**NETRACK**  
2400 x 27 x 8 mm

Designed for installation of wood skirtings. Secure the track to the wall with screws or the One4All Glue before clicking the skirtings into place.

ACCESSORIES FOR YOUR WOOD FLOOR

# Step 2: the perfect finish

## PAINTABLE SKIRTINGS

Next to our perfectly matching accessories, we also offer white and paintable skirtings. So you can paint your skirtings in a colour that suits your style, in the same colour as your walls, or simply leave it classic white.

**Paintable scotia**  
**QSSCOTPAINT**  
2400 x 17 x 17 mm

Paintable scotia that can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

**Paintable wood skirting**  
**QSWPPSKRPAINT**  
2400 x 16 x 80 mm

Paintable skirting with space to hide cables. Easy to install with One4All Glue or Track. Not suitable for damp rooms - check out our range of waterproof skirtings.

**Paintable cover skirting**  
**QSISKRCOVER**  
2400 x 16 x 129 mm

Paintable skirting to put over an existing one - ideal for renovations. Adjustable to 4 heights between 68 and 129 mm. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

**Paintable ovolo skirting**  
**QSISKRWHITE**  
2400 x 16 x 160 mm

Paintable skirting that can be used in two shapes for more decorative freedom. Adjustable to 5 heights between 25 and 134 mm - use the supplied Incizo knife. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

SHAPE 1

SHAPE 2

**Paintable ogee skirting**  
**QSISKROGEE**  
2400 x 16 x 160 mm

Paintable skirting that can be used in two shapes to add a specific character to your interior. Adjustable to 4 heights between 20 and 140 mm - use the supplied Incizo knife. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

SHAPE 1

SHAPE 2

**Paintable small skirting**  
**QSPSKR4PAINT**  
2400 x 14 x 40 mm

Paintable skirting that can be left white as well. Also available in a flexible version (QSFLEXSKR) to finish your entire space in the same style. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

## WATERPROOF PAINTABLE SKIRTINGS

**Waterproof paintable scotia**  
**QSHSCOT19PAINT**  
2400 x 19 x 19 mm

Paintable, 100%-recyclable polystyrene scotia that can be left white as well. Use the Foamstrip and Hydrokit for a waterproof finish in damp rooms. Easy to install with One4All Glue.

**Waterproof paintable skirting - large**  
**QSHSK80PAINT**  
2400 x 15 x 80 mm

Large, paintable, 100%-recyclable polystyrene skirting that can be left white as well. Use the Foamstrip and Hydrokit for a waterproof finish in damp rooms. Easy to install with One4All Glue.

**Waterproof paintable flexible skirting**  
**QSFLEXSKR**  
7000 x 14 x 40 mm

Flexible, paintable skirting made of foamed PVC that can be cut to your desired length. Ideal to finish pillars or curved walls. Use the Foamstrip and Hydrokit for a waterproof finish in damp rooms. Easy to install with contact glue.

ACCESSORIES FOR YOUR WOOD FLOOR

# Step 2: the perfect finish

The Incizo profile is a versatile 5-in-1 patented finishing tool designed to perfectly complement your flooring with matching colours. This solution can also be used to match the look of your stairs.

## COLOUR-MATCHED PROFILES

**Incizo profile**  
**QSWINCP(-)**  
2150 x 54 x 17 mm

Multifunctional and patented finishing tool to finish your floor and stairs in matching colours. Simply cut the Incizo basic profile to the desired shape with the supplied Incizo knife.  
Contains 1 Incizo profile, 1 Incizo knife and 1 plastic rail.

APPLICATION 1  
Connect two floors of different heights.

APPLICATION 2  
Connect two floors of the same height.

APPLICATION 3  
Finish your floor along walls or windows.

APPLICATION 4  
Create a nice transition between your wood floor and other flooring types.

**Incizo aluminium subprofile for stairs**  
**NEWINCPBASE(-)**  
2150 x 70 x 18.5 mm

The Incizo profile also allows you to finish your stairs and steps in the flooring design of your choice. For this application, you need the Incizo profile and an aluminium subprofile. Subprofile to be ordered separately.

APPLICATION 5  
Finish your stairs and steps.

## FINISHING TOOLS

**Coloured kit**  
**QSKIT(-)**  
310 ml

This elastic, acrylic-based paste is the ideal solution to fill joints between skirtings and walls. Available in matching colours.  
Average usage: 1 tube for 15 m.

**Pipe covers**  
**QSPCINOX18/QSPCINOX22**  
2 pcs/pack

Stainless steel covers to nicely finish pipes and heating elements. Available in inside diameter sizes 18 and 22 mm. Do not glue the covers to the floor, but install them floating.

## FINISHING TOOLS

Follow the steps to create a complete room that's ready to take on the splashes and spills of daily life, from giving your pet a well-needed bath, to the mess from an over-enthusiastic helper in the kitchen!

STEP 1

### Install your underlay

Choose the underlay that's most suitable for your project on page 97.

STEP 3

### Add Foamstrip

Install a Foamstrip between the wall and your floor.

NEFOAMSTRIP20  
20000 x Ø 10 mm

STEP 5

### Install your colour-matched skirting

Place the water resistant skirtings and wrap up.

STEP 2

### Install your waterproof floor

Provide an expansion joint (8 to 12 mm) between walls and floor.

STEP 4

### Add Hydrokit

Apply the Hydrokit on top of the Foamstrip.

QSKITTRANSP  
310 ml

Time to enjoy your brand-new floor!

ACCESSORIES FOR YOUR WOOD FLOOR

# Step 3: worry-free maintenance

Quick-Step cleaning products give you efficient, fast cleaning that's ecologically sound and won't damage your flooring.

## CLEANING

**Cleaning product**  
**QSCLEANECO1000**  
**QSCLEANECO2000**  
1 L  
2 L

Specially developed for Quick-Step floors, our biodegradable Floor cleaner thoroughly cleanses your flooring and protects the surface, keeping it looking like new. What's more, it's a sustainable choice so you'll be doing your bit for the environment as well as protecting your floors.

**Spot cleaner**  
**QSSPOTCLEAN**  
250 ml

Our spot cleaner has been expertly developed for Quick-Step floors. Use our Spot cleaner to remove even the most persistent stains such as permanent marker, paint or red wine, as well as kitchen spills, and more.

**Cleaning kit**  
**QSSPRAYKIT**

Mop holder with refillable water tank and handy lever to easily moisten and mop your floor. Also includes a washable microfibre mop and 1 L of Quick-Step Cleaning product. A sustainable choice to clean your floor.

**Cleaning mop**  
**QSSPRAYMOP**

Microfibre mop washable up to 60 °C.  
Compatible with the Quick-Step Cleaning kit.

## REPAIR

**Repair kit**  
**QSREPAIR**

Kit to easily repair light damage and recreate the original colour on your floor. Find detailed instructions at [quickstep.com](http://quickstep.com).

## FOR OILED FLOORS ONLY

**Oil care**  
**QSWOILCLEAN**  
1 L

Protects your oiled wood floor by preventing it from drying out and losing its gloss.

**Maintenance oil**  
**QSWMAINTOILN / QSWMAINTOILW**  
1 L

Transparent/white oil that protects the matt finish of your oiled wood floor and repairs minor damage. Use once a year (or more depending on the wear of your floor). Average usage: 1 L for 75 m<sup>2</sup>. Consult your dealer to pick the right maintenance oil for your floor.

# We've got the answers to all your questions

## 1. What's the difference between a floating and glued-down installation?

Quick-Step wood floors can be installed in two ways: glued-down or floating. For glued-down installation, we recommend Quick-Step wood Glue, which has been specifically developed for use on Quick-Step wood floors. A floating installation requires no glue, but the use of a Quick-Step underlay. In combination with underfloor heating, a glued-down installation works best, whereas a floating installation is easier to achieve. The choice is yours!

## 2. Can I have a wood floor in combination with underfloor heating/cooling?

Yes, you can! Underfloor heating contributes to the warm feeling of a wood floor, but if you live in a warmer climate, a wood floor can also be used with underfloor cooling. If you're installing underfloor heating/cooling, a glued-down floor will give you the best results in terms of heating efficiency. Going for a floating installation? You'll have to use a Quick-Step Silent Walk underlay. This underlay ensures optimal heat flow from your underfloor heating/cooling that rises to the surface.

Check out our special "Floor Heating Installation Instructions" on our website for further detailed guidelines.

## 3. Do I really need expansion joints?

It's important to have the necessary expansion joints along all walls and fixed obstacles to ensure that your floor has enough room to expand or contract according to changes in humidity. If the room is more or less square and if there aren't considerable indoor climate changes, you can lay

a surface of up to 20 m long and 20 m wide without extra expansion joints in the floor surface. With dimensions greater than 20 m or widths of more than 20 m, there should be an intermediate expansion joint. For detailed information, check the installation instructions on our website.

If you go for a floating installation, it is also necessary to place expansion joints under the doors between rooms to separate the rooms. With a glued-down installation, that's not necessary.

## 4. Should I go for lacquer or oil?

### LACQUER

A coat of lacquer applied to the surface of the wood closes the pores. If you opt for extra matt lacquer, your wood floor will have the soft look of oiled wood. Lacquered Quick-Step wood has up to seven layers of UV-cured, water-based lacquer. That's how we make maintenance easier for you and protect your floor against wear, scratches and stains.

### OIL

Oiling your wood floor means impregnating it – the oil seeps into the pores, protecting the wood from the inside and giving it a natural-looking feel. Oiled Quick-Step wood has an extra matt and authentic look, and ages beautifully, thanks to the two layers of modified oil. Micro-scratches can be easily removed with maintenance oil, plus our floors are easy to maintain. But watch out – dirt and stains can penetrate oiled wood if not properly maintained. And it sustains scratches more easily than lacquered wood. That's why you should always give your wood floor the maintenance it deserves.

## 5. In which direction should I install my floor?

### GUIDED BY THE LIGHT

The direction in which you lay your floor will have a huge impact on the overall appearance of a room. As a general rule, you should lay your floor in the same direction as the main light source in a room and in line with the most frequently used entrance. If there are several doors and windows, then opt for the direction that's the easiest to install in.

### IN NARROW ROOMS

In a narrow room, why not lay your floor parallel to the shortest wall? Planks laid widthwise will make a surface appear wider, avoiding a boxed-in feeling. To enhance this further, avoid dark colours for your floor or walls, as these will make the room seem even narrower.

### IN SMALL ROOMS

If you're laying your floor in a small room, you'll want to add a sense of depth. Make a room seem larger by installing your floor lengthwise. Want to increase the effect of the lengthwise installation even further? Then combine a light-coloured floor with darker walls, which will add even more depth to your room.

## 6. In which rooms can I install a wood floor?

The Quick-Step Cala, Cascada and Amato collections are suitable for all rooms – even your bathroom and kitchen, thanks to our waterproof technology. In rooms that are not exposed to water, any of our other collections can be installed. Because our wood is pretreated with oil or lacquer, it will look like new for years to come.

CAL7450

## 8. How do I install a wood floor?

You or your professional installer can install Quick-Step wood in two ways: floating or glued-down. The choice is yours!

Whatever you choose, thanks to our Uniclic (Multifit) system, quick installation is guaranteed. When using underfloor heating/cooling, we advise a glued-down option for optimal heat flow.

To finish off, add some style with skirtings and profiles that match the colour of your floor. Or how about paintable skirtings? Browse through our accessories on page 99.

## MASTER INSTALLERS AT YOUR SERVICE

Opt for professional installation by an accredited Quick-Step Master Installer, or go to your retailer for detailed help about your project. Master installers are trained at the Quick-Step Academy, the most exclusive training centre in the flooring industry.

- Get the best end result with expert underlay selection and subfloor preparation.
- Make your floor stand out with advice on the correct installation direction.
- Enjoy a perfect finish: meticulously fitted skirtings, profiles and staircases.
- Expert quality at the right price.
- A lifetime warranty\* after registration of the installation.

If there's no master installer in your area, stop by your local retailer for questions about installation.

\* The lifetime warranty lasts as long as the product warranty.

More info on [quickstep.com](https://www.quickstep.com)

## 7. What plank size should I use for my floor?

A simple rule is to use a large format for large rooms, which will emphasise the space. For small or irregularly shaped rooms, narrow formats will match the proportions of the room better.

Do you want to make the most of a smaller room? The herringbone pattern, a timeless and contemporary choice for any home, can work wonders in small spaces. Its unique design creates the illusion of more space, making it a stylish and practical option for flooring.
